

BE THERE.

Your child's future depends on being there... in school. Right now. Your children fall behind when they miss school. Missing just two days of school each month by the end of the year harms your child's future, in school and beyond.

Time in school is important, no matter what age the child is. Make sure your children get the chance to learn all they can. If **BEING THERE** becomes a problem for your child, please dial 2-1-1 to see what resources are here to help you.
